

THE POWER OF PURE POLLEN... AS NATURE INTENDED

The use of pollen is not unique to our modern world. The people of ancient China, Persia, and Egypt used pollen, collected from bees, for its remarkable health promoting benefits. Until recently, only bees, because of special enzymes in their saliva, have been able to penetrate the pollen husk and benefit from its contents. Thanks to modern, patented technology, flower pollen can now be raised and harvested in its purest, uncontaminated form.

Pollen Burst™ is made solely from harvested flower pollen that is far superior to bee pollen. Bee pollen is collected by bees from a variety of flowers, plants, and weeds near the hive. While doing its work, however, the bee contaminates this pollen mixture with molds, spores, and bacteria. Thus, it is impossible to produce stable, consistent, and clean pollen from this contaminated source. It should be emphasized that the major problem with bee pollen is not the pollen itself, but the collection, storage, and processing methods used by the bee.

Pollen Burst™ is created from pharmaceutical grade, pure organic flower pollen extracts to ensure the most powerful, full-spectrum, non-allergenic source of nutrition in the world today! Each packet of Pollen Burst™ delivers short-term and sustained energy, along with powerful micro-nutrient support in just the form nature intended!

Nature's Most Powerful Nutrient
Source in a Delicious, Refreshing,
Energizing Drink!

LIFE...

it begins with
the sun.

Every form of life needs energy to survive. That energy comes from the sun. Unfortunately, we can't get nourishment from the sun's energy without some help.

We are dependent upon plant life to convert the sun's life-sustaining energy into nutritional fortification. Through the miracle of photosynthesis, plants convert the sun's energy into food.

Accordingly, the most powerful source of nutritional energy (other than the sun itself) is found at the genesis of plant life: **POLLEN!**

Pollen can be extremely beneficial when maintaining optimal health and wellness. In fact, every grain of Pollen contains natural whole food nutrition that promote well-being. To get the most powerful nutrition nature intended, you must go to the source of all life on earth... Flower Pollen!

REAL NUTRITION

EUROPEAN SCIENCE UNLOCKS LIFE'S GREATEST TREASURE!

Pollen is the very foundation of life. It is as ancient as the earth itself, as complex as the concept of time, and as plentiful as grains of sand.

Each grain of Pollen contains the richest full-spectrum source of trace elements and nutrients known to humanity: More than 180 micronutrients essential for optimal health, including vitamins, minerals, essential amino acids, RNA and DNA factors, carotenoids, enzymes, essential fatty acids, prostaglandins, phytosterols, flavonoids, and numerous other essential bio-factors necessary for life.

Every grain of Pollen gives you the real nutrition nature intended for your health and well-being.

Thanks to patented extraction and stabilization techniques developed in Sweden and France, the exciting benefits of pure Flower Pollen, fortified with Superoxide Dismutase—the most powerful antioxidant known to man—are now available in a simple, delicious, and refreshing energy drink: **POLLEN BURST™!**

POLLEN BURST™ is the world's first nutritional energy drink powered by two unique ingredients: Flower Pollen and Superoxide Dismutase. Pollen Burst™ is all natural, low in calories, and low in natural sugars with no added artificial sugar substitutes or stimulants...and it's delicious!

Unlike so many energy and nutritional fruit juices on the market today, Pollen Burst™ contains ingredients backed by numerous, double-blind, placebo-controlled studies. Years of research and millions of dollars have been spent investigating the benefits of these ingredients, and the results are astounding!

THE WORLD'S MOST POWERFUL NUTRIENT FOOD SOURCE

Pollen Burst™ is packed with solid nutrition. Flower pollen is one of the most complex structures of life on this planet. Beneath the outer husk of a pollen grain (which happens to be the only allergic portion of pollen) is a hypoallergenic, unadulterated nutrient core. This inner core is nature's perfect whole-food source, containing the building blocks of plant life. Extensive scientific research has identified over 3,000 different life-enhancing substances in pollen. In fact, each grain of Pollen contains micronutrients that support optimal health, longevity, and sustained energy.

Microscopic View of Actual Pollen Grains

Imported from Sweden, only the finest, pharmaceutical grade, pure organic flower pollen extracts are used in the production of Pollen Burst™. It is completely hypoallergenic and contains none of the pollutants or contaminants found in bee pollen. No other drink product on the market today utilizes this powerful phytonutrient source.

ANTI-AGING: THE WORLD'S MOST POWERFUL ANTIOXIDANT

Every day, your body is bombarded by damaging free radicals that enter your body through pollutants in the air and harmful chemicals in processed foods and other sources.

You've probably heard a lot about the benefits of antioxidants (notably fruit juices) in fighting free radical damage. While it is true that any fruit-based nutritional supplement will contain some antioxidant properties, scientific research shows that nothing compares with the antioxidant power of Superoxide Dismutase (SOD). Recognized in the scientific community as the world's most powerful and effective antioxidant, SOD is your body's most important defense against aging and disease.

So why haven't you heard more about SOD? It's simple.

Historically, SOD could not be consumed orally because it would be destroyed in the digestive tract before it could be absorbed by the body. New research from France has resulted in a patented vegetarian SOD product – GliSODin® – that can be successfully absorbed and used by the body. Several U.S. patents cover Pollen Burst's™ unique form of SOD.

Pollen Burst™ is currently under the process of acquiring a U.S. patent as the only energy/nutritional drink that contains its unique and proprietary formulation of Flower Pollen, GliSODin®, Green Tea extracts, and other health-promoting ingredients.

WEIGHT MANAGEMENT

Thanks to Green Tea extract, Pollen Burst™ doubles as an effective weight management tool. Green Tea adds an important antioxidant called EGCG to Pollen Burst™. Among many other things, Green Tea has long been known for its anti-bacterial and anti-viral properties, as well as inflammation and swelling reduction qualities. This natural source of caffeine (less than half a can of soda) enhances weight management by decreasing appetite and supporting optimal metabolic function.

IMPROVED ENERGY, PERFORMANCE, AND OVERALL SENSE OF WELL-BEING

Pollen Burst™ is also a good source of important B vitamins, which boost the effectiveness of its active ingredients as well as energy levels. Finally, glucuronolactone, a natural metabolite, is widely known to support optimal mental performance, reaction time, concentration, and memory, while providing an overall sense of well-being.

OVERWHELMING SCIENTIFIC VALIDATION

Pollen Burst's™ powerful ingredients offer vital nutrition and protection for the body while aiding in weight control. No other drink product compares. Pollen Burst™ may very well be the most thoroughly-researched health supplement/energy drink in the world today!

When it comes to your health and well-being, don't trust folklore. The science behind the beneficial properties of Pollen Burst™ is overwhelming. To learn more, visit www.burstscience.com.
