

Invision™ Hydrophilic Organic Colloidal Mineral Skin Enhancer

Item #44201

American Longevity's® new Triple Molecular Adhesion process uses natural, pre-digested organic plant-derived ingredients that are so minute they penetrate your skin to the level of the dermis, where the basal cells are born. These 75 major and trace submicron particles make healing and treating of the skin possible from the inside out. In order to have healthy skin, the basal cells produced at this level must be nourished with all the proper nutrients. Hydrophilic, organically-derived, colloidal minerals can effectively penetrate to this layer. The new technological processing method which produces this incredible new skin cream, creates the strongest ever mechanics for rejuvenating skin molecules! Your skin reproduces itself with new skin cells every 28 days. In less than a month of nourishing your skin from the inside out with Invision™ Skin Enhancer, you will begin to see why this revolutionary skin cream is the best thing that ever happened to your skin!
