Majestic Earth® Plant Derived Minerals™

A liquid concentrate of 19,000 mg of a natural assortment of up to 77 minerals from prehistoric plants in their unaltered colloidal form.

Minerals never occurred in a uniform blanket on the crust of the Earth. Therefore, unless you supplement with minerals, you can't guarantee that you'll get all you need through the four food groups. Our Plant Derived Minerals™ products are liquid concentrates containing a natural assortment of up to 77 minerals from prehistoric plants in their unaltered colloidal form. A mineral deficiency can lead to disease or even death. Plant Derived Minerals™ can help in your fight against deficiencies. Now, it even comes in a great-tasting cherry flavor. Each quart of Majestic Earth Ultimate® Plant Derived Minerals™ contains 19,000 mg of dissolved minerals. Don't let a day pass without it!
